25-30	HDC314-30	314 sq.	43	220	300 sq.	33

NOTE - INSTALLATION IS ONLY COMPLETE WHEN:

REMOVE SAFETY KEY FROM LID

NEVER leave the HIDE Safety Key in the lid for any reason, especially after install. Leaving the Safety Key in an installed lid exposes a contractor to possible legal ramifications if a resulting accident or injury occurs.

PASS TO HOMEOWNER

Store the HIDE Safety Key **out of reach of children**, in a secure, childproof location.

WARNING! DO NOT ALLOW ACID OR CHEMICAL WASH SOLUTIONS TO CONTACT THE HIDE PRODUCT.

KIT CONTENTS

HIDE lids can be installed both in new landscapes, or retrofitted in existing outdoor areas. They are designed for quick (and affordable) installation by a contractor, and each HIDE kit contains all the components for a no-fuss install.

HIDE SAFETY KEY

A stainless steel tool to enable the installed HIDE lid to be safely and easily opened/closed.

HIDE INLAY LID

A marine grade, 316 stainless steel tray which holds the inlay (landscape) materials you've chosen eg tile, paver, concrete, decking etc.

The inlay material is purchased separately. It is not included in the HIDE kit.

HIDE EDGE PROTECTOR

A marine grade, 316 stainless steel frame inserted into a recess within the landscaped area. It protects the coping/surrounds from chipping/breakage when the Inlay Lid is opened/closed.
